Please can you clarify the status/arrangements of the football field & extra land following the road construction. Will it be retained by Welsh Gov to ensure the protection of our outdoor public space? If it is to be returned to the original owners, what measures will be put in place to ensure that the landowners dont alter the new landscaping, make public access difficult or worse still develop the land for housing? Please can you let us know which areas of the land would be returned, so that we can see how this might affect our property.
