Hi Gareth  
Thank you for your letter of 10<sup>th</sup> June.

I am interested on behalf of SP Energy Networks who operate and manage the electricity network up to 132kV on behalf of the licenced network operator, SP Manweb, for the area affected by the proposed Roads Order.

In general, SP Energy Networks has no objection to the proposed development subject to required measures to protect SP Manweb network assets and ensure safe working around the affected network. This network is shown on the attached SPM assets plan.

Can I suggest in the first instance you provide me with a plan showing your proposals as they affect our assets and if available any report that you have regarding how services will be managed. along with any land rights information that you are drafting which identifies SP Manweb rights. I will then be able to advise regarding operational implications as well as how the scheme affects any existing rights SP Manweb holds for its network in the area. Please let me know if you are already dealing with someone at SP Energy Networks on the proposals and I can liaise with them on our side.

Thanks
