Dear Respondent,

Postponement of the Public Local Inquiry for the A55 Junctions 14/15 and 16/16A Improvements Schemes

I am writing on behalf of the Inspector to inform you that the Inquiry into the above mentioned A55 road schemes will not be opening on the 21st September as previously announced. In a Ministerial Announcement by Lee Waters, Deputy Minister for Climate Change earlier today it was confirmed that the Inquiry has been postponed until further notice. This is to allow the schemes to be included within the Welsh Government's Roads Review that was announced in June.

Any representations that you have made in relation to this Inquiry will be retained but no further action will be taken to progress matters for the time being. We will be in contact with you once further developments are known.

The inconvenience that this late postponement will cause you is regretted, but these circumstances are outside our control.
